

Data Center

- Built Area: 19,194.55 m²
- IT Capacity: 7.2MW – Fast Deploy
- Diesel Autonomy: 48h
- Electrical Topology: N+1
- Cooling Topology: N+1
- Dock, Reception, Office and Storage Area
- 100% renewable and certified energy consumption, reducing environmental impact
- Constant Data Center modernization with modern equipment and UPS generators
- TIA-942 Rated 3

Security

- Close TV Loop System (CCTV) recordings for 90 days
- Access Control with double-factor authentication and biometric reader
- 24x7x365 armed private security for the Data Center area
- Firefighter available 24x7x365
- Fire Detection and firefighting system equipped with inert gas, Vesda and smoke detectors
